With the increase in home-working, dedicated office space is in demand. This foldaway office was built in to a second bedroom; by day it is a fully functioning and attractive office, but at night it can be shut away behind neat, folding, lacquered doors. This design by **Domus Furniture** can be tailored to most spaces and finished in a range of colours. Preliminary estimates can be given by phone or fax, minimum commission rate is £1,500 (08000 931043 [www.domusfurniture.co.uk](http://www.domusfurniture.co.uk)).

Wire-free living? If you're starting from scratch, there's the option of having all your cables built into the walls. A less drastic solution to clearing home-entertainment clutter lies with central digital storage. The **Kaleidescape system**, for example, will store your CD and DVD collections on a hard drive, allowing you access it all through a television. Kaleidescape starts at £10,000, including installation ([www.gibsonmusic.com](http://www.gibsonmusic.com)).
